

CLAIMS

What is claimed is:

1. An article of manufacture containing an absorbent material of odoriferous substances, said absorbent material comprising a carrier formed by particles obtained from one of a woody ring and a chaff ring of a corncob.
2. The article of Claim 1, wherein said article comprises one of a sanitary napkin, a pantiliner, a cateamenial, a diaper, an adult incontinence garment, an underarm shield and a toilet tissue.
3. The article of Claim 1, wherein said carrier has a content of less than 1% of fines by weight and a moisture content below 10%.
4. The article of Claim 1, wherein the particles of said carrier have a size ranging between 73 and 841 microns.
5. The article of Claim 1, further comprising an active ingredient mixed with said carrier.
6. The article of Claim 5, wherein a concentration of said active ingredient ranges between 0.01% to 50% by weight of the chaff and woody ring of the corncob
7. The article of Claim 5, wherein a concentration of said active ingredient ranges between 0.01% to 50% by weight of the chaff ring of the corncob
8. The article of Claim 5, wherein said active ingredient is selected from a group consisting essentially of polymers, fragrances, perfumes, flavors, reducers, neutralizers and anti bacterial, in either a liquid or a solid state.

9. The article of Claim 1, wherein said carrier is impregnated with an adherent substance.

10. A method of manufacturing an article containing an absorbent material of odoriferous substances, said absorbent material comprising a carrier formed by particles obtained from one of a woody ring and a chaff ring of a corncob, said method comprising the step of dispersing said absorbent material within a fluff cellulose of
5 said article.

11. The method of Claim 10, wherein said article comprises one of a sanitary napkin, a pantiliner, a cateamenial, a diaper, an adult incontinence garment, an underarm shield and a toilet tissue.

12. The article of Claim 10, wherein said carrier has a content of less than 1% of fines by weight and a moisture content below 10%.

13. The article of Claim 10, wherein the particles of said carrier have a size ranging between 73 and 841 microns.

14. The article of Claim 10, further comprising an active ingredient mixed with said carrier.

15. The article of Claim 14, wherein a concentration of said active ingredient ranges between 0.01% to 50% by weight of the chaff and woody ring of the corncob

16. The article of Claim 14, wherein a concentration of said active ingredient ranges between 0.01% to 50% by weight of the chaff ring of the corncob

17. The article of Claim 14, wherein said active ingredient is selected from a group consisting essentially of polymers, fragrances, perfumes, flavors, reducers, neutralizers and anti bacterial, in either a liquid or a solid state.

18. The article of Claim 10, wherein said carrier is impregnated with an adherent substance.
